Dates to remember:

Due: July 15, 2014

Preferred by: June 30, 2014

Late/Incomplete Notification to Director of Assessments: July 30, 2014

Instructions

1. Districts will submit the data elements defined in this data dictionary for each student who was enrolled in your school district during the 2013-2014 school year through the State Report Manager (SRM) at <https://srm.eed.state.ak.us/srm>

Note: Students that have dropped out or transferred during the summer of 2013 should be reported, but with blank Entry and Exit Dates. For summer dropouts, use an Entry Type of 0 and an Exit Type of 0. (See *FAQ #16 for further clarification.*) For summer transfers, use an Entry Type of 0 and the Exit Type that matches the type of student transfer. In either situation, leave AgDA and AgDM null. (See *FAQ #40 for further clarification.*)

To accommodate the different computer systems in Alaska and to facilitate data reporting, districts have two file format options for reporting data:

- Tab-delimited (.TXT)
- Comma-separated (.CSV)

For further instructions on submitting through SRM, please see [Appendix G](#). Additionally, this year the Department of Education and Early Development (EED) is providing a test environment for SRM at <https://srmtest.eed.state.ak.us/srm>. If your district is unable to submit the file using SRM contact Eric Caldwell (eric.caldwell@alaska.gov) for assistance.

2. After the completed data file is submitted, you will immediately receive a validation summary report that lists errors that need to be corrected and warnings where verification is needed.
3. Make corrections in original file.

For list of validation rules and error message details, please see [Appendix H](#).

4. Re-submit corrections through SRM. Repeat steps 1-3 until data is free of errors.
5. Certify/verify data is accurate through SRM.

Data is due to EED by July 15th.

The due dates for the receipt of the data by EED are critical to meeting the deadlines for preparing the preliminary data for district review by July 1 and for preparing the final data by August 15.

To ensure that the July 1 Preliminary Reports include the attendance and graduation information, we encourage districts to submit the completed Summer OASIS files by the last week of June. If this is not possible, preliminary attendance rate and graduation rate data must be submitted via the Report Card to the Public Data Collection spreadsheet to be included with the Preliminary Reports. The Graduation Rate and the Attendance Rate are included in the new accountability system in the ASPI calculations. The final ASPI results are scheduled to be released on or around August 15th, 2014. Districts that have not submitted their Graduation Rate and/or Attendance Rate information risk having 0% reported for these indicators which will negatively impact the index score and may cause additional consequences for the school.

Note: The State Report Manager (SRM) is an online automated data collection process where you will upload your file and receive immediate data validation.

4AAC 06.830. Subgroups
 4AAC 06.899. Definitions

Code	Description	Definition
1	White (Caucasian)	A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.
2	African American	A person having origins in any of the black racial groups of Africa.
3	Hispanic	A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.
4	Asian	A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian Subcontinent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand and Vietnam.
5	American Indian	A person having origins in any of the original peoples of North and South America (including Central America) who maintains cultural identification through tribal affiliation or community attachment. Please do not include Alaska Native students.
6	Alaska Native	A person who is a descendant of a member of the aboriginal races inhabiting the state when annexed to the United States, or who is a descendant of an Indian or Eskimo who, since the year 1867 and prior to June 30, 1952, migrated into the state from Canada, and who is a descendant having at least one-quarter blood derived from these ancestors.
7	Two or more races (not Hispanic)	A student who primarily identifies their ethnic heritage with more than one subgroup. Do not include individuals that have identified themselves as Hispanic/Latino.
8	Native Hawaiian or Pacific Islander	A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.

New Race/Ethnicity Codes - EED Guidance

Beginning July 1, 2010, school districts nationwide will be required to collect, retain and report student level ethnicity data as prescribed by the US Department of Education guidance published in the Federal Register on October 19, 2007.

Educational institutions and other recipients will be required to collect racial and ethnic data using a two part question on the educational institutions' or other recipient's survey instrument. The first question would be whether their respondent is Hispanic/Latino. The second question would ask the respondent to select one or more races from the following racial groups.

The information listed below is to provide guidance to the districts. Beginning with Fall OASIS collection 2010-2011, this change will be reflected in the EED data collections.

Second public comment period closed 09/21/2006
USED guidance released in early June

1. Collecting data
 - a. Two questions
 - i. Are you Hispanic or Latino? Yes/No
 - ii. Select races that you wish to identify with:
 1. African American
 2. American Indian/Alaska Native
 3. Asian
 4. Caucasian
 5. Native Hawaiian/Pacific Islander
 - b. Individual can check all that apply – “self-identification”
 - c. Encourage the opportunity to “re-identify” - change existing codes
 - d. Retain the individual records for future enforcement purposes - OCR
2. Reporting Data
 - a. Reporting Codes
 - i. African American
 - ii. American Indian/Alaska Native
 - iii. Asian
 - iv. Caucasian
 - v. Hispanic
 - vi. Native Hawaiian/Pacific Islander
 - vii. Two or more races
 - b. If Hispanic AND other race = Hispanic
 - i. *(example: Caucasian + Hispanic = Hispanic)*
 - c. Any other multiple identification, excluding Hispanic, coded as Two or more races *(example: African American + Asian = Two or more races)*
 - d. If race/ethnicity is not chosen, “user identification” is employed – the person responsible for reporting chooses codes
 - e. Does not affect **ASPI** subgroups as those are negotiated with USED in the state accountability plans

Appendix C: Guidance Regarding Free & Reduced Lunch

Joint Education/Agriculture Letter about the Use of Student Information Collected Pursuant to the National School Lunch Program

Dear Colleague:

December 17, 2002

As schools across the country begin to implement the No Child Left Behind Act (NCLB), the milestone elementary and secondary education legislation signed into law by President Bush at the beginning of 2002, a number of school officials have raised questions about the use of student information collected pursuant to the National School Lunch Program in carrying out provisions of Title I of the Elementary and Secondary Education Act, as reauthorized by NCLB. The purpose of this letter is to respond to those concerns.

Educators have specifically asked whether it is permissible to use information from the school lunch program in disaggregating student assessment scores, in determining student eligibility for supplemental educational services, and under certain circumstances, in prioritizing opportunities for public school choice.

Title I, Part A of the Elementary and Secondary Education Act (as reauthorized by the No Child Left Behind Act)

States and local educational agencies (LEAs) receiving funding under Title I, Part A must assess and report on the extent to which students in schools operating Title I programs are making progress toward meeting State academic proficiency standards in reading or language arts and in mathematics. Title I now requires States and LEAs to measure and report publicly on the progress of all students, and of students in various population groups, including students who are economically disadvantaged. If assessment results show that any of the groups has not made adequate yearly progress toward meeting State achievement standards for two consecutive years, the LEA must identify that school as needing improvement. All students attending the school must be given the opportunity to attend other public schools that have not been identified as needing improvement, with priority given to the lowest-achieving students from low-income families. In addition, once a school has failed to make adequate yearly progress for three years, the LEA must provide economically disadvantaged students who attend that school the opportunity to obtain supplemental educational services from a nonprofit, for-profit, or public provider.

For many LEAs, information from the National School Lunch Program is likely to be the best, and perhaps the only source of data available to hold schools accountable for the achievement of economically disadvantaged students, and also to identify students as eligible to receive supplemental educational services or to receive priority for public school choice. Moreover, in the case of the priority for public school choice and eligibility for supplemental educational services, the law specifically requires LEAs to use the same data they use for making within-district Title I allocations; historically, most LEAs use school lunch data for that purpose. After examining these new requirements, State and local officials have inquired as to whether they may use school lunch data to meet these requirements while remaining in compliance with the student privacy provisions of the National School Lunch Act.

National School Lunch Act

Section 9 of the Richard B. Russell National School Lunch Act (NSLA) establishes requirements and limitations regarding the release of information about children certified for free and reduced price meals provided under the National School Lunch Program. The NSLA allows school officials responsible for determining free and reduced price meal eligibility to disclose aggregate information about children certified for free and reduced price school meals. Additionally, the statute permits determining officials to disclose the names of individual children certified for free and reduced price school meals and the child's eligibility status (whether certified for free meals or reduced price meals) to persons directly connected with the administration or enforcement of a federal or state education program. This information may be disclosed without parental consent.

Because Title I is a Federal education program, determining officials may disclose a child's eligibility status to persons directly connected with, and who have a need to know, a child's free and reduced price meal eligibility status in order to administer and enforce the new Title I requirements. The statute, however, does not allow the disclosure of any other information obtained from the free and reduced price school meal application or obtained through direct certification. School officials must keep in mind that the intent of the confidentiality provisions in the NSLA is to limit the disclosure of a child's eligibility status to those who have a "need to know" for proper administration and enforcement of a Federal education program. As such, we expect schools to establish procedures that limit access to a child's eligibility status to as few individuals as possible.

We urge school officials, prior to their disclosing information on the school lunch program eligibility of individual students, to enter into a memorandum of understanding or other agreement to which all involved parties (including both school lunch administrators and educational officials) would adhere. This agreement would specify the names of the individuals who would have access to the information, how the information would be used in implementing Title I requirements, and how the information would be protected from unauthorized uses and third-party disclosures, and would include a statement of the penalties for misuse of the information.

Other Provisions

We also note that NCLB did not alter other provisions of Title I under which school officials have historically made use of National School Lunch Program data. LEAs are still required to rank, annually, their school attendance areas, by percentage of students from low-income families, in order to determine school eligibility and to make Title I within-district allocations based on the number of poor children in each school attendance area. They must also determine the amount of funds available to provide services to eligible private school students within the district, again using data on students who are from low-income families. Many LEAs have, for many years, used National School Lunch Program data in making these calculations, which do not involve the release of information on the school lunch eligibility of individual students. They may continue to do so under the new law, while respecting the limitations on the public release of those data described above.

We hope the above information clarifies what we know has been a matter of great concern in states and school districts. If you desire more detailed information about public school choice and supplemental educational services, it can be found at <http://www.ed.gov/policy/elsec/guid/secletter/030220.html>.

We will also be providing guidance on Provisions 2 and 3 of the National School Lunch Program and the impact of NCLB on those provisions in the near future.

Collection and Use of Income Data for Free & Reduced Lunch Program and Economically Disadvantaged Status for Title I and School Accountability – EED Guidance

Family income data is used for determining eligibility for free or reduced price lunches for a school lunch program. The same income data is used to determine a school's percentage of economically disadvantaged (or "low income") students for determining if the school is eligible for Title I, Part A funding and services. It is also required for determining which students meet the income criteria as defined by Alaska regulations (4 AAC 06.830 and 06.899(5)) for the economically disadvantaged subgroup for determining a school's adequate yearly progress and for determining student eligibility for federal programs such as Supplemental Educational Services (SES). Finally, this data is used to determine a school's eligibility for funding under the federal E-Rate program that supports school internet access. Individual students that meet the income criteria for economically disadvantaged must be reported in both the spring Participation Rate data collection and the Summer OASIS data collection.

These requirements have raised questions from districts on how to obtain family income data to determine which students meet the economically disadvantaged criteria if a school or district does not offer a lunch program, or if a school has been determined to be a "Provision 2" or "Provision 3" school under the school lunch program and is not required to collect household applications every year. The following questions and answers are provided to address these issues.

1. How is data collected to determine eligibility for the school lunch program?

Families complete household applications to verify their income level to determine if their students qualify for free lunches or reduced price lunches. In addition, EED staff provides data from Health and Social Services monthly to each district as a "direct certification" list of students that are eligible for free lunches without requiring a household application. These students are eligible based on participation in programs such as the Alaska Temporary Assistance Program (ATAP) or Food Stamps.

2. What is direct certification data and how is it used?

Direct certification data is a list of students who live in a district who are automatically eligible to receive free lunch because their family is already qualified through another assistance program. This data is provided to EED by the Department of Health and Social Services. EED provides this confidential information to each district for the purposes of determining which students automatically qualify for free lunch. This minimizes requiring families to fill out additional applications.

3. What does it mean to operate as a Provision 2 or Provision 3 school?

Based on the income data from household applications for a given year, a school with a high poverty rate may be eligible to operate as a Provision 2 or 3 school under the National School Lunch Program. This means that all students in the school are provided school meals at no cost, and the district is reimbursed by the state according to the poverty percentage of the eligibility determination during that base year. The eligibility may remain in effect for up to 5 years without collecting new household applications.

4. How is data collected to determine whether a student meets the economically disadvantaged criteria if a school does not have a lunch program or if it is not collecting household applications in a given school year?

Schools that do not offer lunch programs (including correspondence schools) must use a survey annually to collect general family income information. This survey is not an in-depth household application for school lunch purposes, but meets the requirements to determine economically disadvantaged status for Title I, School Accountability, and E-Rate. A sample survey and instructions are posted on the EED website at <http://education.alaska.gov/tls/TitleIA/>. This survey will be updated with the new income data after July 1 of each year, so be sure to use the current data for the applicable school year in which you are giving the survey. (Note: Household application forms for school meals may *not* be used for survey purposes.)

5. How can we encourage families to turn in a survey if a school does not offer a lunch program?

The survey is worded to encourage families to complete it because it brings benefits to the school such as E-Rate and Title I funding. Correspondence or charter schools that have an application process are encouraged to include income questions as part of the application process rather than a separate survey in order to get the most accurate information from the greatest number of families.

6. How is a household application for school lunch different from an Income Survey for Title I?

A household application for free or reduced price lunches is a very detailed application that includes information about the family income. An Income Survey for Title I or E-Rate purposes is a simple survey that allows the family to check the income range and number of people in the family and to list the children enrolled in schools in the district. The district then uses the income level chart to determine which families meet the criteria to be considered economically disadvantaged.

7. Are migrant students considered economically disadvantaged?

Migrant students are categorically eligible for free lunch. Only the migrant eligible students in the family qualify for free lunch; siblings that are not migrant eligible do not qualify. Migrant students are eligible for free lunch and thus may be automatically considered as economically disadvantaged students for each school year in which they are migrant eligible students. For questions about identification of migrant students, contact EED's Migrant Education Program Manager, Marian Svobodny, at 465-8718 or marian.svobodny@alaska.gov.

8. Are homeless students considered economically disadvantaged?

Homeless students are considered categorically eligible for free lunch and thus may be automatically considered as economically disadvantaged students for the school year in which they are originally identified as homeless. For questions about identification of homeless students, contact EED's Homeless Education Program Manager, Kay Streeter, at 465-3826 or kay.streeter@alaska.gov.

9. Which district staff may have access to data on a child's economically disadvantaged eligibility status?

The actual household application data for a school lunch program is confidential. However, a student's eligibility status as economically disadvantaged is required for federal education programs including Title I, therefore that information must be available to applicable district staff for the purposes of those programs. (See "Part 7, Confidentiality/Disclosure of Eligibility Information" on pages 52-53 of the *Eligibility Manuals for School Meals* posted on the EED website at <http://education.alaska.gov/tls/cnp/NSLP.html>.)

10. Which district staff needs this information?

District staff that may need this information include school lunch personnel, Title I coordinators, assessment and accountability staff, business managers, and superintendents. These staff should be familiar with these requirements.

11. Who should I contact if I have questions about school lunch programs and eligibility for free or reduced lunches?

Contact Elizabeth Seitz, the EED National School Lunch Program Coordinator, at 465-8709 or elizabeth.seitz@alaska.gov or Jo Dawson, Child Nutrition Program Administrator, at 465-8708 or jo.dawson@alaska.gov.

12. Who should I contact if I have questions about criteria for economically disadvantaged status for Title I programs, for the ASPI subgroup, or for school poverty data for Title I allocations?

Contact the EED Title I Program Manager for your district or contact Margaret MacKinnon, Title I/NCLB Administrator at 465-2970 or margaret.mackinnon@alaska.gov.

Appendix D: Limited English Proficient (LEP) Student

A "limited English proficient (LEP)" student is one who meets the definition of LEP in 4 AAC 34.090(2) and who has been determined to be LEP based on the assessment of English language proficiency required under 4 AAC 34.055(c) to determine if the student is limited English proficient and has not yet met the criteria to exit LEP status as described in 4 AAC 34.055(d).

Definition of an LEP Student (4 AAC 34.090(2))

(2) "limited English proficient pupil" or "LEP pupil" means an individual

(A) who is between 3 and 21 years old;

(B) who is enrolled or preparing to enroll in an elementary school or secondary school;

(C) who falls into one or more of the following categories of individuals:

(i) an individual not born in the United States or whose native language is a language other than English;

(ii) an American Indian, Alaska Native, or native resident of the outlying areas, who comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency; and

(D) whose difficulties in speaking, reading, writing, or understanding the English language may be sufficient to deny the individual the

(i) ability to obtain a proficiency level of proficient or advanced, as described in 4 AAC 06.739, on the state assessments in reading and writing or in reading and language arts under 4 AAC 06.730, 4 AAC 06.737 or 4 AAC 06.755;

(ii) ability to successfully achieve in classrooms where the language of instruction is English; or

(iii) opportunity to participate fully in society;

Note: The "outlying areas" indicated in 4 AAC 34.090(2)(c)(ii) are adopted by reference in 4 AAC 34.090(6). These areas include the U.S. Virgin Islands, American Samoa, and Northern Mariana Islands

Effective 2/18/2008:

4 AAC 34.055(d) is repealed and readopted to read:

(d) If under (b) and (c) of this section, a district identifies a pupil as an LEP pupil eligible for services under this chapter, that pupil remains identified as an LEP pupil until the pupil obtains, on tier B or tier C of the assessment approved by the commissioner under (c) of this section a

(1) composite score of 5.0 or higher; and

(2) score of 4.0 or higher in each tested domain – reading, writing, speaking, and listening. (Eff. 1/14/78, Register 65; am 8/15/78, Register 67; am 6/28/87, Register 102; am 5/4/2000, Register 154; am 11/23/2003, Register 168; am 8/29/2004, Register 171; am 12/7/2004, Register 172; am 2/18/2007, Register 181; am __/__/2012, Register __)

Adopted by State Board of Education, 3/9/2012

4 AAC 34.055 is amended by adding new subsections to read:

(e) A district shall monitor the academic progress of each pupil who had been identified as an LEP pupil for two years after the pupil is no longer identified as an LEP pupil. A former LEP pupil is not required to participate in the annual English language proficiency assessment unless the district determines that a student's failure to make academic progress may be a result of a lack of English language proficiency and the pupil may need to be re-identified as an LEP pupil.

Appendix E: 4 AAC 07.060. Student Records

(a) Each district shall maintain for each student a cumulative record consisting, at a minimum, of the following:

(1) subjects student has taken;

(2) grades earned and an explanation of the grading system used;

(3) units of credit earned;

(4) attendance records;

(5) scores student has recorded on standard tests taken; and

(6) records of required immunizations and physical examinations and other health-related matters required by state law or district policy or bylaws; and

(7) beginning August 31, 2002, a unique 10-digit individual student identification number issued by the department; the student identification number must appear in each electronic record containing student-level information that is reported to the department; the student identification number must appear on each student examination booklet administered under 4 AAC 06.712, 4 AAC 06.730, 4 AAC 06.737, and 4 AAC 06.755.

Appendix F: Homeless Definition

Each district is required to identify a homeless liaison to facilitate the identification of and education services provided to homeless students. This person should be able to provide the information about which students have been identified as homeless according to the following definition.

(Sec.725, McKinney-Vento Act – found in Title X of NCLB)- The term “homeless children and youth” means:

- a. individuals who lack a fixed, regular, and adequate nighttime residence; and,
- b. includes-
 - i. children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or similar reasons; are living in motels, hotels, trailer parks, or camp grounds due to the lack of alternative accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting foster care placement;
 - ii. children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
 - iii. children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
 - iv. migratory children who qualify as homeless for the purposes of this subtitle because the children are living in circumstances described in clauses (i) through (iii).

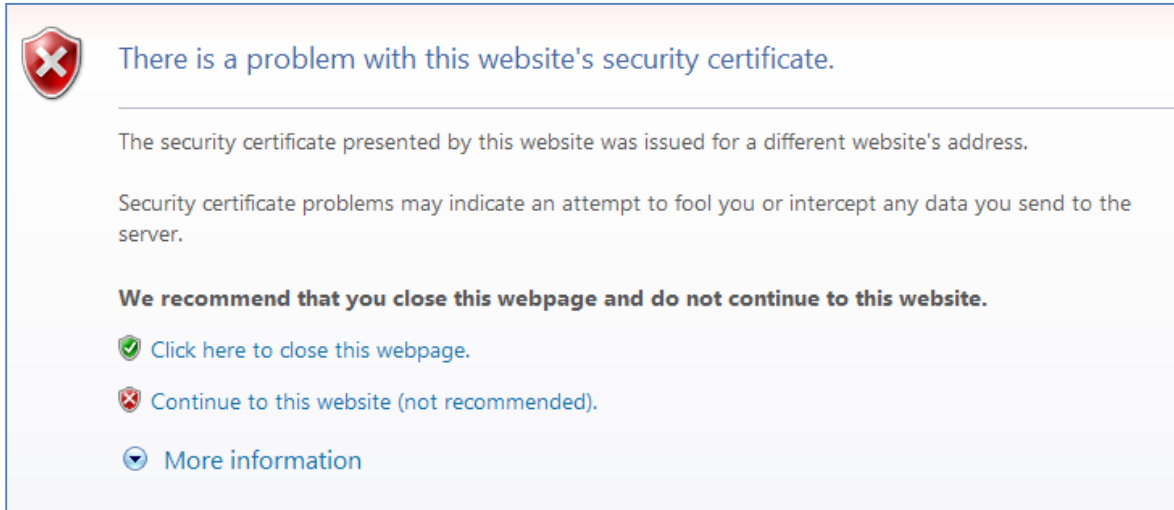

Appendix G: State Report Manager (SRM) System Submission Process

1. If not already assigned a username and password, contact Eric Caldwell at eric.caldwell@alaska.gov to create login information.

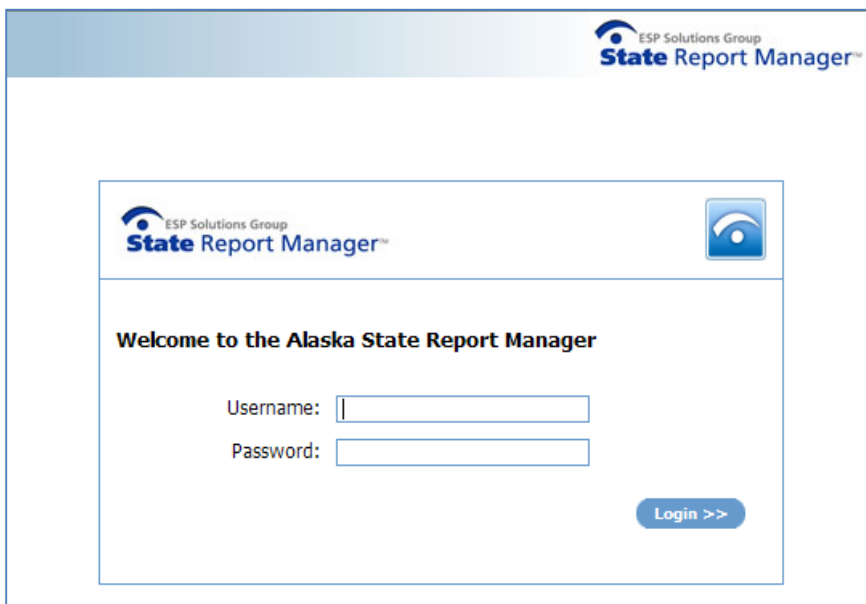

Notes:

- Make sure your file is in a Tab-delimited (.TXT) or Comma-separated (.CSV) format.
- Make sure to replace header in your file with SRM header.

2. Using your Internet browser, navigate to <https://srm.eed.state.ak.us/srm>. If you get the below security message, click on “Continue to this website” and contact Brian Laurent at brian.laurent@alaska.gov.

3. Type in your login information.

4. Click on “Run a Trial” link, next to the report name you would like to submit.

Note: Trial Name link will have a different name if a file has already been submitted.

Welcome to the Alaska Department of Education & Early Development State Report Manager

SRM has identified the following state reports. Please select a state report by clicking on a Trial Name below:

Current State Reports

Name	Collection Start Date	Due Date	Trial Name	Trial Date	Submission Status
Spring OASIS Collection 2010			Run a Trial		
Summer OASIS Collection 2010			Run a Trial		

5. Click on “Browse...” to upload your file.

Note: To download file headers click on “CSV file headers” link. Headers must match exactly in order for system to properly check data.

Please select how we will receive your data:

SIF -- Transfer trial data from your district using SIF synchronization.

Upload -- Upload text files.

Please upload your data files. You can upload tab-delimited (.TXT) or comma-separated (.CSV) files. If a file is large, you may zip it first. Uploaded files must be smaller than 20 MB.

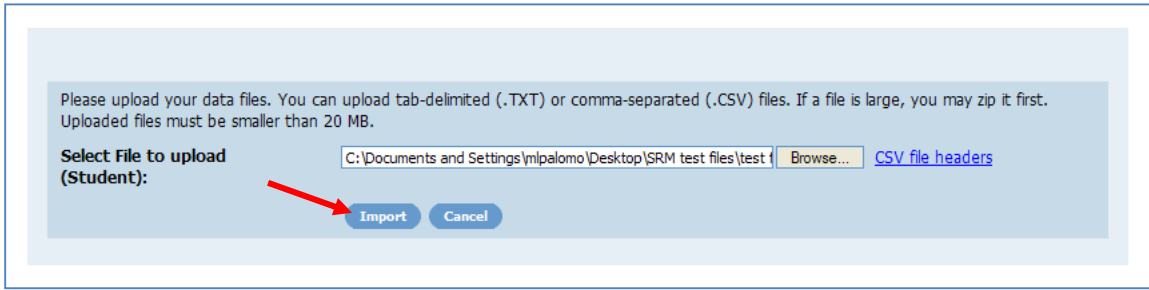

Select file to upload (Student):

[Browse...](#) [CSV file headers](#)

Find and select the file to upload then click “Open.”

6. Once the correct data file is selected, click on “Import.”

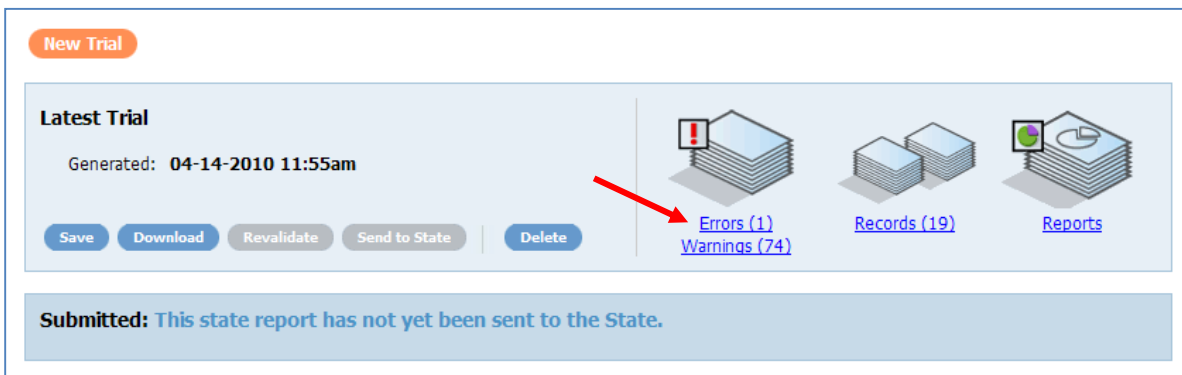

The selected file is now uploading.

- When the file upload and data checks are complete, a data summary will appear detailing the number of errors, warnings and total records submitted.

The data is now ready for review and correction. Click on “Errors” link to view errors.

- Click on “Violation Summary” link to view error report in excel and correct errors in original file and re-submit file or click on specific error to view each error individually and correct errors in original file.

5	Visual Impairment	Impairment in vision that, even with correction, adversely affects a child's educational performance. The term includes partial sight and blindness.
6	Emotional Disturbance	A condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a child's educational performance.
7	Orthopedic Impairment	A severe orthopedic impairment that adversely affects a child's educational performance. The term includes impairments caused by a congenital anomaly, impairments caused by disease (e.g., poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns that cause contractures).
8	Other Health Impairment	A condition exhibiting limited strength, vitality, or alertness, including a heightened alertness to environmental stimuli, that results in limited alertness with respect to the educational environment, that is due to chronic or acute health problems, such as asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia, lead poisoning, leukemia, nephritis, rheumatic fever, sickle cell anemia, and Tourette syndrome; and adversely affects a child's educational performance.
9	Specific Learning Disability	A disorder in one or more of the basic psychological processes involved in understanding or using language, spoken or written, that may manifest itself in the imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations, including conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. SLD does not include learning problems that are primarily the result of visual, hearing, or motor disabilities; of cognitive disabilities; of emotional disability; or of environmental, cultural or economic disadvantage.
10	Deaf-Blindness	Concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational needs that they cannot be accommodated in special education programs solely for children with deafness or children with blindness.

Disability Code	Description	Definition
11	Multiple Disabilities	Concomitant impairments (such as cognitive disability-blindness, cognitive disability-orthopedic impairment, and cognitive disability-deafness, etc.), the combination of which causes such severe educational needs that they cannot be accommodated in special education programs solely for one of the impairments, except the term does not include deaf-blindness.
12	Autism	Developmental disability significantly affecting verbal and nonverbal communication and social interaction, generally evident before age three (3) that adversely affects a child's educational performance. Other characteristics often associated with autism are engagement in repetitive activities and stereotyped movements, resistance to environmental change or change in daily routines, and unusual responses to sensory experiences.
13	Traumatic Brain Injury	An acquired injury to the brain caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment, or both, that adversely affects a child's educational performance. TBI applies to open or closed head injuries resulting in impairments in one or more areas, such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem solving; sensory, perceptual and motor abilities; psychosocial behavior; physical functions; information processing; and speech. TBI does not apply to brain injuries that are congenital or degenerative, or brain injuries induced by birth trauma.
14	Developmentally Delayed	A child with a disability ages three (3) through eight (8) who is determined, through appropriate diagnostic instruments and procedures, to be experiencing delays in the following areas: physical development, cognitive development, communication development, social or emotional development, or adaptive development and who, by reason thereof, needs special education and related services.

Appendix J: Alaska Performance Scholarship Program

According to 4 AAC 43.010, the following information shall be provided to determine a student's level of eligibility for the Alaska Performance Scholarship program (APS). The attached Eligibility Checklist for 2014 may be helpful to review. Additional questions regarding APS eligibility should be directed to Shari Paul, who may be contacted at shari.paul@alaska.gov or (907) 465-6535.

For the Class of **2014** each High School Senior for the **Collegiate Performance (Field 45)**:

Code 1 - First Award Level (\$4,755/year) The student must have:

Math and Science Academic Option

- ✓ GPA of 3.5 or higher **and**
- ✓ An ACT score of 25 or higher; **or**
- ✓ An SAT score of 1680 or higher
- ✓ Met the state's subject matter requirements for high school graduation **and**:
 1. Completed four units of Math
 2. Completed four units of Science
 3. Completed four units of Language Arts
 4. Completed four units of Social Studies (*1 unit in foreign language, Alaska Native language, fine arts, or cultural heritage may be substituted for 1 unit in social studies*)

Appendix K: Migratory Child Definition

Each district is required to track and report upon students who have been certified as an eligible migrant student through the migrant student identification and recruitment process, regardless of whether the student received services from the migrant program.

The definition of “migratory child” comes from Title 34 of the Code of Federal Regulations [34 CFR 200.81(d)]:

(d) Migratory child means a child who is, or whose parent, spouse, or guardian is, a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who, in the preceding 36 months, in order to obtain, or accompany such parent, spouse, guardian in order to obtain, temporary or seasonal employment in agricultural or fishing work (1) Has moved from one school district to another; (2) In a State that is comprised of a single school district, has moved from one administrative area to another within such district; or (3) Resides in a school district of more than 15,000 square miles, and migrates a distance of 20 miles or more to a temporary residence to engage in a fishing activity.

Migrant students must be certified as eligible by the state before being reported as a migrant student. Please contact Margaret MacKinnon, Title I Manager, at margaret.mackinnon@alaska.gov or (907) 465-2970 should you have questions or require additional information.

Appendix L: State Report Manager (SRM) Record Layout

The table below represents the field names that are needed in the header to submit the Summer OASIS data file through the State Report Manager (SRM). Each field must be used exactly as presented below. Any substitutions, changes, or deletions will stop the processing of the data file. The error message that results in SRM is: "One or more required fields are missing" (error #67000). This header with data must be submitted as a CSV (comma delimited) or TXT (tab delimited) file through the SRM portal (see Appendix G for detailed directions).

This header can also be found in Excel format on the EED Forms and Grants website at the following link: <http://www.eed.alaska.gov/forms/home.cfm>. Place "OASIS" in the **Search by Form Title Keyword** field. The form will be called **Summer 2014 OASIS SRM Column Heading Template**.

Appendix M: A Guide to Frequently Asked Questions

1. Why is this data being collected and why should I get it in on time?

One goal of the Summer OASIS data collection is to reduce the reporting burden on school district personnel by consolidating data collections and eliminating redundancy in federal program reporting.

By collecting information at the student-level we can aggregate data for counts, calculate indicator rates and link to other student-level databases.

However, for the department to successfully utilize the Summer OASIS data it is very important that the information be sent in by **July 15th**. The district is expected to return either the Summer OASIS file or the Report Card to the Public spreadsheet by **June 15** to facilitate processing of the preliminary ASPI data.

Erroneously reported end of year data can be damaging to the school district's dropout, graduation, and attendance rates that are used in calculating ASPI.

The preliminary ASPI data is released on July 1 and the final ASPI reports are released on or around August 15. Late submission of data from even one district delays accurate calculation and reporting for federally required data collections, including ASPI.

When there is no information available the department will report 0%. This will have grievous impact upon a school's ASPI rating and is likely to trigger additional consequence.

Summer OASIS is also being used to collect and report eligibility data for the Alaska Performance Scholarship. Without this data, otherwise eligible graduates from your district will not be awarded scholarships.

AgDA/AgDM Questions

2. How do I calculate AgDA and AgDM?

If requested, a template will be sent with a pre-filled column indicating the maximum AgDM for each student contained in the template. **You may use this maximum indicated AgDM for those students who were enrolled for the entire year.** The maximum AgDM is calculated using your district's official school calendar that was submitted to the department.

AgDM (aggregate days membership) is the total number of days that a student was *enrolled* during the 2013-2014 school year. For a returning student, begin counting with the official first day students attended school (different schools may have different first days - check the official school calendar). For a transfer or returning student, begin counting with the first day that the student was enrolled **during this school year (July 1, 2013 - June 30, 2014)**.

Stop counting on the last day that the student was officially enrolled or the official last day of student attendance. When counting the total number of days that a student was enrolled, **do not include** Summer School Days, Inservice Days, Holidays, Vacation Days, Teacher Work Days, and Parent-Teacher Days. These days do not count toward the minimum requirement.

Do include the days that the student was absent, but still enrolled in school.

AgDA (aggregate days attendance) is the total number of days that a student *attended* school during the 2013-2014 school year. For a newly enrolled student, begin counting with the first day that the

student attended school. For a transfer or returning student, likewise begin counting with the first day that the student attended school **during the current school year (July 1, 2013 - June 30, 2014)**. **Do NOT start counting before the official first day that students attended - check the official school calendar.** Skip days that the student was absent and stop counting on the last day that the student attended or the official last day of school that students attended. **Include the last day of school if the student attended.** When counting the total number of days that a student attended school, do not include Summer School Days, Inservice Days, Holidays, Vacation Days, Teacher Work Days, and Parent-Teacher Days not meeting the minimum hour requirement.

Example: If a student was enrolled at the beginning of school, attended for 10 days, and then dropped out, enter 10 on the first row/record for the AgDM and AgDA. If the same student then returned after Christmas break and re-enrolled and attended school for 20 days, you would start another row/record and enter 20 for the AgDM and AgDA. The student's other information would be duplicated with the exception of the Entry Date, Entry Type, Exit Date, Exit Type, AgDM, and AgDA.

3. How are days of attendance and membership for Pre-K students reported?

Districts are required to maintain internal attendance records for Pre-K students. These records may be audited by School Finance for foundation funding purposes. As AgDA and AgDM are not factored into the Alaska School Performance Index (ASPI) and are not part of EED's required reporting, a null value is allowable for Pre-K students only.

4. What is a day of attendance and how are partial days of attendance calculated?

The definition of a day of attendance and how to record partial days of attendance are both addressed in the [Student Data Reporting Manual](#), adopted by reference:

Day of Attendance - Students are counted in attendance when present at school. Days of attendance do not include in-service days. Attendance shall be recorded based upon the percent of the student's normally scheduled instructional day. *For example, a student who is normally scheduled for two hours per day as a part-time student would be recorded with half a day in attendance if he were absent for one hour. The sum of a day of attendance and a day of absence must equal one.* A student may be counted present only when he or she is actually at school or is present at another school-sponsored instructional program. This may include authorized independent study, work-study programs, academically related field trips and instruction for homebound students. It does not include "making up" school work at home, or activities sponsored by private individuals or groups. Correspondence school students are counted in attendance as long as they are in membership. Homebound students are counted in attendance, if they are receiving at least ten hours of instruction per week by an itinerant teacher.

5. Why aren't In-service Days included in the AgDA and AgDM calculations?

AgDA & AgDM calculations are defined by the following Alaska Administrative Code:
4 AAC 06.895 Report card to the public (i) Each school shall compute and report the information required by [AS 14.03.120](#) (d)(5) and this section as follows:

(1) the attendance rate is a fraction, expressed as a percent, the numerator of which is the aggregate daily attendance during the regular school year, and the denominator of which is the aggregate daily membership for the school year; the aggregate daily attendance is the sum of the days present for all students when school is in session during the school year; the aggregate daily membership is the sum of the days present and absent for all students when school is in session during the school year; **inservice days are not included in the computation**; for the purposes of this paragraph, a student is considered present if physically present at the school or engaged in a school activity even if the activity is away from the school.

Special Education Questions

- 6. Do I use a certain date in determining which students with disabilities should be included with a disability code?**

No, all students who received special education services at any point during the reporting period should have their disability recorded. This includes students who transferred to general education at some point during the reporting period.

- 7. Should I report Entries and Exits such as when a student is initially tested or when a parent declines services?**

No, these are not events for which the state is required to collect data. Do not include such events. With the exception of Disability Category, IEP in Place July 1, Transfer to General Education, and Transfer to General Education Date fields, special education students should be reported the same as other students.

- 8. What students should receive a Y(es) in the IEP in Place on July 1 field?**

Only students who had an IEP in place *in Alaska* on July 1, 2013 should receive a Y(es) in this field.

- 9. How do I determine which students should be marked Y(es) for Transfer to General Education?**

If a student had an IEP in place on July 1, 2013 and then transferred to general education at any point during the school year before June 30, 2014 enter Y in the Transfer to General Education field. This means the student is still in school, but no longer receiving special education services. Students who leave special education because they left school (graduated, dropped out, etc.) should NOT be marked Y based on those exit events.

Any student marked Y for Transfer to General Education must have an associated Disability Category. *(This question refers to element 16 – Transfer to General Education.)*

- 10. At what age does a student with disabilities reach the maximum age for services?**

A student with disabilities who has not been issued a regular diploma may be provided SpEd-related services until reaching the age of 22. If a student with disabilities is 21 years of age and will turn 22 prior to the completion of the following school year, that student may, in Element 21, receive an Exit Type of **11** (reached maximum age for services and did not receive a diploma or certificate of achievement).

Graduation Questions

- 11. How should I code a student who is recorded as a graduate from two schools in the district?**

If your district has students graduating who are dually enrolled within the district, the graduation Exit Type must be assigned to only one school that the student attends. Use an Exit Type of 17 for the other student record whose school is not assigned the graduation Exit Type - and put "Graduate" in the associated notes field. *(This question refers to element 21 – Exit/Withdrawal Type.)*

- 12. Should a correspondence student be reported as a graduate if it is known that he/she graduated from a brick and mortar school?**

No, a student may only graduate from one school. Report a student as a graduate only if he/she is receiving a diploma from the reported school.

13. How should mid-year graduations be reported?

The district should report the final date of student attendance for all graduates. *(This question refers to element 20 – Exit/Withdrawal Date.)*

14. How should prior summer graduates be reported?

If your district has students graduating with a diploma during the prior summer (July 1, 2013 to the beginning of school, fall 2013), report these students with an Entrance Type 0 (zero) and Exit Type 15. Leave the Entrance Date blank. Put in the official graduation date in the Exit Date. *(This question refers to elements 18-21 – Entry Date, Entry Type, Exit/Withdrawal Date, Exit/Withdrawal Type.)*

15. How should former students (not enrolled) who pass the HSGQE and receive a regular diploma be reported?

If your district has non-enrolled returning students who take and pass the HSGQE, graduate, and receive a regular diploma, code them with Entrance Type 0 (zero) and Exit Type 16. Leave the Entrance Date blank. Enter the official graduation date in the Exit Date. *(This question refers to elements 18-21 – Entry Date, Entry Type, Exit/Withdrawal Date, Exit/Withdrawal Type.)*

15. How should students be reported when being issued a diploma by a public school in Alaska under the Interstate Compact on Educational Opportunity for Military Children?

Students who did not enroll in an Alaska public school during the current year, but who are eligible for a diploma under the compact, should be coded with Entrance Type 0 (zero) and the Exit Type that most accurately reflects the student's graduation. This will usually be Exit Type 7. Leave the Entrance Date blank. The Exit Date will reflect the date the diploma is issued. In the Notes field, identify the student as "Interstate Compact Graduate."

Dropout Questions

16. Which students should be coded as dropouts?

Any student (grades 1-12) who discontinues schooling for any of the following reasons should be coded as a dropout:

- pursuing GED
- administrative drop
- entering military without receiving a diploma
- employment
- expulsion
- failing
- family problems
- pregnancy
- alcohol/drug dependency
- prolonged illness
- transfer to non-district sponsored home schooling
- truancy
- unknown reasons for school withdrawal and no formal request for transfer of student's records

- ❖ A student who transfers to a non-district sponsored home school environment is a dropout UNLESS he/she enrolls in a public correspondence school. (When district dropout totals are calculated, EED verifies whether dropouts have enrolled in another district. If student has enrolled elsewhere, that student is not counted in the numerator of the dropout rate).
- ❖ A student who transfers to a private school is not considered a dropout.
- ❖ A student who leaves school with a certificate of achievement in lieu of a high school diploma, returns to school within the same reporting year, and then drops out in the same reporting year will be counted as a drop out for the year.

17. How do I determine if a student is considered a Summer Dropout (coded as Entry Type 0, Exit Type 0, and blank Entry and Exit Dates.)?

A student (grades 7-12 only for Summer Dropouts) who completed the 2012-13 school year but did not return to school at the beginning of the 2013-14 school year and who did not have a formal transcript request or confirmed transfer event, should be reported as a Summer Dropout with an Entry Type of 0 and Exit Type of 0. Leave the Entry Date and Exit Date fields blank.

18. Will a student who drops out more than once be counted more than once as a dropout in calculating the district's dropout rate and/or graduation rate?

Within a district for any given year, a dropout is only counted once in the dropout rate numerator. For graduation rate calculations, only the most recent exit event is considered. Once a Summer OASIS file is received, student dropouts can be deleted from the dropout rate numerator if the student later enrolled in another school or district.

19. How do I code a student who goes on an extended family vacation?

A student who discontinues schooling but is expected to return (due to lengthy family vacations, illness, etc.) should **not** be coded as a dropout. His/her days absent should be subtracted from his/her AgDA, but not from his/her AgDM. If the student has been formally withdrawn, do not include any days after the formal withdrawal in the student's AgDM.

20. How do I code a student who returns to school late from summer break?

If a student returns AFTER October 1st (unless the student enrolled late for a valid reason that the district recognizes) report them on one row/record as a Summer Dropout with an Entry Type of 0 and Exit Type of 0 AND leaving the Entry & Exit Dates blank. Next, report them on another row/record as you would with any other returning Dropout with an Entry Type of 7. If the student returns BEFORE October 1st, report them as you would a regular returning student with absences at the beginning of the year.

Email Eric Caldwell at eric.caldwell@alaska.gov if you believe there are special circumstances that need to be considered.

21. How should an expelled student be coded?

An expelled student should be coded as a dropout. If these students re-enroll in another school/district, then they are removed from the dropout rate numerator.

22. How should an expelled student who is verified to have enrolled in a public school in another state be coded?

The student should be coded as a student Exit Type 3 (Transfer to a public school in a different state or country).

23. Why do I need to report graduates and dropouts since they're already reported for the school Report Cards?

The Report Card Handbook mentions that the Graduate and Dropout information is being collected in the Summer OASIS file. ***There is no need for the Report Card Coordinator to submit Graduate and Dropout information in the Report Card data submission if the information is reported by June 15 via the Summer OASIS file*** (although the rest of the requested data in the Report Card data submission must be provided). If the district submits Graduate and Dropout information in both the Report Card data submission and Summer OASIS file then the department **will use the Summer OASIS data file** to calculate the official Graduation Rates and Dropout Rates.

Free-Lunch & Low-Income Questions

24. Do I use a certain date in determining whether a student is considered Economically Disadvantaged (Low Income)?

The Economically Disadvantaged (Low Income) information may reflect the most recent information you have on the student.

25. Why isn't the Economically Disadvantaged (Low Income) pulled from the state's free lunch information?

Ideally, EED could get that information from the state's free/reduced lunch information, but EED only receives the total count of students receiving free/reduced lunches. Unless the entire district qualifies, EED would not know which students qualify and would be considered low income. If a school or district does not participate in the free/reduced lunch program, the school/district must still report Economically Disadvantaged students according to the criteria specified in *Alaska Income Eligibility Guidelines for Free and Reduced Meals*, adopted by reference in 4 AAC 06.802 (See Appendix C).

26. If a student is Free/Reduced lunch qualified (often used to determine Low Income/Economically Disadvantaged status) at some point of the year, is he/she qualified the entire school year even if he/she exits the Free/Reduced lunch program and/or exits the school?

Yes.

27. May we report all Migrant eligible students as Low Income/Economically Disadvantaged?

If a student qualifies as Migrant, then he/she is eligible for free/reduced lunch. The district may, at its option, consider all Migrant eligible students as Low Income/Economically Disadvantaged. Alternatively, the district may choose to survey in order to classify Migrant students as Low Income or not Low Income according to the eligibility guidelines in 4 AAC 06.802.

28. What is the free/reduced lunch eligibility status of a student who qualified at some point for free/reduced lunch benefits but then later in the school year had low income or migrant benefits withdrawn or denied?

A student who is determined to be eligible for free/reduced lunch benefits at any point during the school year is considered eligible for the entire school year.

LEP Questions

29. If a student is LEP qualified at some point of the school year, is he/she qualified the entire school year even if he/she exits the LEP program and/or exits the school?

Yes. While an LEP student may stop receiving program services, he or she must meet the exit criteria of being proficient once on the ELP assessment, so an LEP student is considered LEP until the end of the school year when the exit determination may be made.

30. How should a student be coded on LEP Status (element 23) if he/she was identified as an LEP eligible student during the reporting period and scored at the overall proficient level on the spring state-approved assessment of the English language proficiency?

Code such a student with a code 'LT' because such a student is considered an LEP student for the entire reported school year. The LT code indicates the student has met the criteria to exit LEP status at the end of the reported school year. In the next school year, such a student would be coded as 'M1' (first year of monitoring for a former LEP student).

31. How should a student be coded for LEP Status (element 23) if he/she was assessed for LEP between July 1 and June 30 of the reported school year and was identified as LEP eligible?

Code such a student with code 'L1' because such a student is in the first year of identification as an LEP student.

32. How should a student be coded on LEP Status (element 23), who was coded as an M2 on the Participation Rate reporting?

Code such a student with a code 'M2' on this reporting also. Next year such a student would be coded as 'X' (not an LEP student).

33. How should students be coded who are not potential LEP or LEP eligible students?

On elements 23 and 26, code these students with an 'X'. On element 24, code these students with a '99'

34. How does a district monitor former LEP students?

Former LEP students must be monitored for two years for academic progress. Students in grades 3-10 (those tested in math and reading/language arts for ASPI) will be monitored for proficiency in the content Standards Based Assessments. Students in grades K, 1, 2, 11, and 12 will be monitored for academic progress in reading/language arts and math according to local criteria as determined by the district. The district will determine which academic courses and grade reports will be monitored for the two years of monitoring, and the criteria for academic achievement or failure.

Entry/Exit Questions

(These questions relate to element 19 – Entry Type and element 21 – Exit/Withdrawal Type)

35. How do I report a student who is enrolled simultaneously in more than one school?

Report the student on multiple rows. The student should be reported as simultaneously enrolled and attending in each school environment, whether it is a regular, alternative, or correspondence school.

36. How do I code a returning student who enters school at the beginning of the school year, is enrolled for the entire school year, and is expected to continue on in the same school the next year?

A student who is enrolled the entire school year will have one row/record with an Entry Date matching the official first day of school for students (not teachers) and an Exit Date matching the official last day of school for students (not teachers). Use Entry Type 10 for Returning Students and Exit Type 14 for a PK-11th grade student expected to continue on the next year (or Exit Type 13 for a 12th grade student who did not graduate, but is expected to return as a 12th grade student).

37. How do I code a student who enters and exits school enrollment several times during the school year?

A student who enters and exits schooling several times during the school year **must have multiple rows/records** reflecting the student's multiple Entry and Exit Dates. These students will also have multiple Entry and Exit Types and multiple AgDAs and AgDMs which will have to be calculated. **Do not combine multiple entries and exits in a single row/record.**

38. How do I code a private school student who is taking public school classes, but is not going to graduate from the public school?

Private school students taking public school classes will be assigned an Entry Type of 5 and Exit Type of 5. The student's Exit Date will be the official last day of the public school attended.

39. Should I report a mid-year student grade promotion or demotion as an entry and/or exit?

No, do not report mid-year grade promotions/demotions *unless* the student changed schools. If a student is promoted or demoted mid-year in grade and as a result *changes schools* within the same district, code the student with an Exit Type of 1 from the school he/she is leaving and an Entry Type of 1 for the school he/she is entering.

For general students who are continuing on at the end of the school year, code their grade level as it was at the end of the year and use Exit/Withdrawal Type Code 14 (*see Exit/Withdrawal Type Code 13 for returning 12th graders*).

40. How does the district account for a student who was reported at the end of 2012-2013 as expected to return (Exit/Withdrawal Types 13 and 14), did not return in 2013-2014, and transferred elsewhere or who was reported at the end of 2012-2013 as transferring to another Alaska public school district (Exit/Withdrawal Types 1 and 2) but actually transferred to a private school or a school outside of Alaska in 2013-2014?

The district should report Entry Type 0 (non-enrolled student) and an Exit Type that indicates whether the student transferred to another Alaska district (2), to a different state or country (3), to a private school (5), or to a correctional institution with a diploma-track education (6). **If the student's status is unknown and/or the student was not received by a diploma-track program, the student should be coded as a summer dropout (0).** The Entry Date and the Exit Date must remain null. Aggregate Days of Attendance and Aggregate Days of Membership must both remain null.

Accurately reporting these transfers will assist the district and EED in identifying your district's and schools' true cohort groups, which will improve the accuracy of your four-year cohort graduation rates.

41. A student is returning to school following a period of attendance at the Alaska Military Youth Academy (AMYA). What entry code would be used upon reentry?

A student must have previously discontinued schooling (exit code 12) to be eligible for services through AMYA. The entry code would be based upon the student's circumstances on a case by case basis, with the most likely entry codes being:

Entry Code 7 – Reentry after a voluntary withdrawal from the same school

Entry Code 8 – Reentry after an involuntary withdrawal (*i.e.*, expulsion) from the same school

Entry Code 9 – Initial entry for the school year

General Questions

42. What grade should I report for a student who is in more than one grade during the year?

Report the grade identified with the student as of the exit date on the record/row.

Alaska Performance Scholarship Questions

43. A graduating student does not qualify for an Alaska Performance Scholarship. What information do I need to provide?

Enter a code of zero (0) for Collegiate Performance Scholarship Eligibility (Element 45) and Career/Technical Performance Scholarship Eligibility (Element 46) to indicate the student is not eligible for an Alaska Performance Scholarship. Elements 47 and 48 must contain null values, as these elements are only entered for students who qualify for an Alaska Performance Scholarship.

44. A student qualifies for the third award level Collegiate Performance Scholarship and the first award level Career/Technical Performance Scholarship. Can I report different scholarship levels for Collegiate and Career/Technical Performance Scholarships?

Yes. Please note that a student can be eligible for a higher level Career/Technical scholarship than Collegiate scholarship; however, the Collegiate scholarship level cannot be higher than the Career/Technical scholarship level.

45. A student qualifies for the Alaska Performance Scholarship through the Social Studies and Language option. Does this mean the scholarship will be cancelled if the student decides to major in one of the Math and Science fields?

The academic option is provided to offer two different paths to qualify for the Alaska Performance Scholarship. The choice of academic option does not limit the student's course of study at their postsecondary institution.

Migrant Questions

46. If a student is a qualified migrant student at some point of the year, is he/she qualified the entire school year even if he/she exits the migrant program and/or exits the school and/or does not receive migrant program services?

Yes.
